

**A MUST FOR
EVERY SYSTEM,
FOR EVERY ADMIN**

CATCH-IT

by KensieMae Technologies

FEATURES & BENEFITS

- Custom fields capture data at certain loan events & date stamp them
- Capture loan, user, doc events and write any business rule referencing those
- Tailor rules to run with specific personas
- Questions regarding the functionality of the tool or clarification of fields can be answered using the concierge button

CREATE TRIGGER RULES TO FIRE WHEN YOU NEED

This simple, but incredibly powerful utility allows you to maximize native business rule-writing by opening up loan and session events you can base your logic on. Create trigger rules that fire when a loan is opened, saved, closed... or when a milestone is completed, a document added, or condition added, etc. With more than 200 lenders already relying on Catch-It every day, this one is a must-have!
