BRIDGE

for  **blend** by KensieMae Technologies

The API solution for your Blend platform

Blend Integration Tools & Automation

Our Blend integration includes industry-leading service, setup, documentation, and support. The Bridge for Blend integration includes four main solutions:

- Borrower & eConsent Sync
- Blend Disclosure Bridge
- Loan Status Sync
- Follow-Up Document Delivery

KMT continues to enhance and develop new features, functionality & automation in Bridge for Blend. Therefore, our Blend integration solutions are available in 2 purchase options:

1. One-time current version install (with support and warranty)
2. Monthly subscription, which includes updates, feature adds, and integration enhancements.

One-Time / Monthly*

\$4495 / \$495

*Monthly subscription requires a \$995 one-time fee for initial install, setup and implementation. Also includes related additional features & enhancements at no charge.

INTEGRATION SOLUTIONS

Borrower & eContent Sync

- Automated eConsent data sync
- Automated Borrower data sync
- Populates and manages native EM fields
- Monitors for changes and updates from Blend
- Ensures data integrity and SOR matching

Disclosure Bridge

- Holistic, end to end eDisclosure sync and flow
- Simple, user friendly UI and workflow
- Dynamic, intelligent controls
- Advanced disclosure status and tracking
- eConsent Management and sync included
- Accounts for multiple workflows & native Encompass disclosure paths

Loan Status Sync

- Correct, current loan status updates to Blend
- Automated data sync between systems
- Admin-level controls for status mapping
- Simple, business rule driven controls

Follow-up Document Delivery

- eFolder documents can now be imported from, sent to, or requested through Blend
- If attachment is labeled Appraisal the 1st delivered appraisal date will be updated
