

**AUTOMATE THE
SERVICING
PROCESS**

INTERIM SERVICING MANAGER

by KensieMae Technologies

FEATURES & BENEFITS

- Batch import payments & escrow disbursements from an external source
- Print and add 1st payment letter to eFolder
- Auto-trigger escrow disbursement entries with field 2835 (saves 1,500 clicks per every 100 loans closed)
- Automatically start servicing in any loan (saves 700 clicks per every 100 loans closed)
- Batch option to launch Start Servicing right off the pipeline view

ELIMINATE THE NEED TO OPEN LOANS FOR INTERIM SERVICING

This tool provides a way to update loans with payment & escrow disbursement entries in batch or automatically. It virtually eliminates the need to go into individual loans for any interim servicing tasks, including the printing of a 1st payment letter or other documentation.
